-  Personal portfolio

### Technical Skills

- React
- Node Js
- Express Js
- Mongo DB
- Tailwind Css
- SQL
- Git

### Soft Skills

- Problem solving
- Communication
- Teamwork
- Time management

### Languages

- Sinhala
- English

### About Me

I am an undergraduate at the University of Sri Jayewardenepura with a strong passion for technology and innovation. As a skilled full-stack developer, I possess expertise in building robust, scalable, and user-friendly web applications. I thrive in collaborative environments and am eager to leverage my knowledge to drive impactful solutions

### Education

#### Bachelor of Information and Communication Technology (Hons)(UG) 2022-Present

- Faculty of Technology, University of Sri Jayewardenepura
- Specialized in Software Technology

### CERTIFICATIONS

- **Postman API Fundamentals Student Expert**  
Conducted by Postman
- **Server-Side Web Programming**  
Conducted by University of moratuwa

### Projects

- **Real Time Train Tracker**  
Developed a real-time Train Monitoring System using Arduino, GPS-enabled ESP32, and a full-stack web app with React, MongoDB, Express.js, and Node.js.
- **E-Commerce Application**  
Developed a dynamic e-commerce platform using the MERN stack, integrating RTK Query for efficient state management and API interaction. The application features user authentication, product browsing, a shopping cart, secure payment gateway integration, and an admin dashboard for managing products and orders.
- **Blogging Application**  
Created a feature-rich blogging application leveraging the MERN stack and Redux Toolkit Query for state and data fetching management. The platform allows users to create, edit, and manage blog posts, comment on articles, and engage with other users.
